## WILSON IS AROUSED BY SLOW CONGRESS

[By Associated Press Leased Wire.] Washington, May 15.—President Wilson today took steps to speed up Congress on the program of war legislation essential to carry on the conflict with Germany. He planned to call two leaders of both senate and house tonight and to urge more speed in putting through measures dealing with food control, providing for the building of a merchant fleet, the war tax bill and others.

The president was represented today as thoroughly aroused to the situation confronting the administration. Congress has been in session about six weeks and with the exception of the declaration of war and the \$2,000,000,000 bond bill has put through none of the legislation necessary to a successful prosecution of the war. Much delay has been occasioned particularly in the senate by long debate. No program of just what measures should be passed first had been mapped out today but it was believed that food control legislation would be among the first.

Agree to Big Ship Fund.—Appropriation of \$100,000,000 of which nearly \$40,000,000 is to be immediately available, for federal purchase and construction of a fleet of merchant vessels, was agreed to today by the senate appropriations committee.

Legislation authorizing the government to take necessary shipbuilding facilities also was approved.

Favor Roosevelt Army.—Senate and house conferees on the army bill today agreed to report the measure with provision authorizing the president to raise the volunteer division (Colonel Roosevelt) desired to lead to France. No other changes in the bill were made by the conferees.

Act on Spy Bill.—Final shaping of the administration espionage bill passed yesterday by the senate 77 to 6, related today with a conference committee of the two houses. The principal differences to be adjusted were over newspaper censorship, which the house included and the senate rejected, and the senate's provisions for postal censorship and export embargo, not included in the house bill.

The senate rejected 47 to 37 the amendment to forbid use of grains or sugar for liquor during the war, which had been adopted Saturday in committee of the whole 38 to 32.

## WOMAN TO GET VOTE IN BRITISH COLONIES

[By Associated Press Leased Wire.] London, May 15, 4:11 p. m.—Walter H. Long, secretary of state for the colonies, introduced in the house of commons today the franchise bill which embodies the recommendations of the speakers' electoral reform conference. The bill provides for the enfranchisement of women which now depends upon the vote of the two houses of parliament.

Spy Case at Peoria.—[By Associated Press Leased Wire.] Peoria, Ill., May 15.—Circuit Judge T. N. Green stated today that two trucks containing plans of Peoria factories sent to the Mexican border by United States secret service recently, were checked out of Peoria by a woman spy. He added that arrests are expected shortly.

## War Situation

Altho beset with innumerable difficulties, the provisional government of Russia is determined to stick to its task.

The government will make an effort to amalgamate the diverse elements which by their conflict have made an orderly and efficient government in Russia impossible. It announces in appreciation of the confidence that units of the re-established and the country need of the various representatives of the new democracy take their prompt part in the responsible task of government.

The council of soldiers' and workmen's delegates, comprising the socialist and extreme radical elements, apparently is becoming increasingly willing to consider participation in the formation of a provisional government. It has appointed a commission to negotiate with the provisional government and is for a commission to negotiate with the provisional government and is for a commission to negotiate with the provisional government.

This follows the council's urging upon the army at the front the necessity of ceasing to fraternize with the Germans and to appeal to it to resume the offensive against them and the last severe cause of general peace.

Meanwhile, the front in northern France is witnessing an increasingly determined resistance by the Germans to any further advances by the British and French who in their offensive have pushed to points of extreme danger for the German lines.

Evidently with heavy reinforcements at their command, the German armies in both the Arras and the field of operation, are launching heavy assaults at the points especially menacing. Thus the British are being attacked around Bullecourt and the French along the Chemin des Dames plateau.

At both places the German attacks as reported today in the London and Paris official statements, were repulsed by the entente forces. The British held their grip on the "Zandvoort" line in the Bullecourt region, the German thrust completely failing. In Bullecourt itself General Haig's troops retained their hold on the village, only some advanced units in the northwestern portion being forced back a little way.

The drive at the Chemin des Dames position where the French had been established for a further push toward the fortress of Laon, was equally unsuccessful, Paris announces. A fighting on an advanced trench south of the village was the only point where the Germans were able to gain.

## PRIVATE BANK BILL PASSED BY SENATE

[By Associated Press Leased Wire.] Springfield, Ill., May 15.—The bill to provide statewide regulation of private banks passed the senate 75 to 6 today. It will go to the house at once and the fight that has been waged against it in the senate probably will be renewed there. The bill proposes to compel incorporation of all private banks. Senators who opposed it charged that it meant the extinction rather than the regulation of private banks.

The Buck-Bancroft bill to regulate the trial courts from the state will service law was passed by the senate today 84 to 6. Amendments added to the bill in the house are expected to be concurred in by the senate this week.

Shurtliff Leads Fight.—Rep. Edward D. Shurtliff, of Chicago, who led the administration forces in the fight for passage of the bill, declared it would strengthen the service by eliminating the necessity of maintaining inefficient employees in service.

"It is a vicious bill," Mr. Shurtliff declared, "and it is a speech bitterly attacking it."

On the roll call on passage, four Democrats, Gorman, Griffin, Jones and McGowan, broke from their party and voted for the bill.

"It will kill civil service," Mr. Shurtliff declared, "and it will kill the service."

The house killed the Cook county and Chicago municipal court bill service bill. The former received only 40 affirmative to 48 negative votes and the latter 44 affirmative and 62 negative. Democrats voted almost solidly against them.

The resignations of these two army officers will be considered after the successor of General Guchkov has been appointed.

General Petain was appointed as commander in chief of the French armies operating on the French front at a cabinet meeting today.

Slava Urged to Fight.—Petrograd, Monday, May 14, via London, May 15.—Conditions of the entry into the provisional government of representatives of the socialist forces discussed last night by the executive committee of the council of workmen and soldiers delegates. The fundamental principles of the program which was discussed were:

A foreign policy openly pursuing the aim of reaching as soon as possible general peace without annexations or territorial demands on the basis of the right of nations to work out their own destinies.

Decisive measures with a view to demoralization of the army and reinforcement of Russia's military strength at the front for the defense of Russian liberty.

A series of social, economic and financial reforms.

The executive committee has formed a commission to negotiate with the provisional government.

## DEFEATED, DRYS RESUME THE FIGHT IN CONGRESS

[By Associated Press Leased Wire.] Washington, May 15.—Undismayed by the senate's prohibition amendment to the Cullen's prohibition amendment from the espionage bill, senators today began legislation during the war today planned to renew their fight.

A group including Cummings and Kenyon of Iowa, Gore of Oklahoma, Curtis of Kansas, Gronna of North Dakota and other senators, are working on a carefully worded bill for prohibition either as a separate measure or as an amendment to the first food conservation bill brought up.

Whether the proposed new prohibition measure shall directly prohibit use of foodstuffs in manufacturing liquor or shall clothe the president with power to prohibit it, is undecided. The terms of them are said to favor the former plan.

## REFUSE ROADS RIGHT TO INCREASE FARES

[By Associated Press Leased Wire.] Springfield, Ill., May 15.—Illinois railroads today were refused permission by the state public utilities commission to increase passenger rates between points in Illinois from 2 cents a mile, the fare fixed by statute, to 2 1/2 cents. The roads, it is said, will appeal to the United States supreme court.

The interstate commerce commission recently ordered Illinois carriers to revise their passenger rates to avoid discrimination between St. Louis and East St. Louis and other Illinois points.

The force of the Illinois law forbids any upward revision of the rates.

Pupils will be permitted to inspect the exhibit in the building which they attend Friday morning and in the afternoon will be given permission to visit other schools, teachers being given the same privilege.

An unusual amount of time and care have been given to the arrangement of this display and it is strong effort to visit the schools as in no other way can a better idea be given of the work being accomplished than by this practical collection of the work.

Of the 6,000 men ordered to report for training only 3,736 appeared and as a result the places of the others will be filled by men passed as suitable, but for whom there had been no accommodations previously. Their non-appearance, for the most part, was attributed to their inability to pay the expenses of coming upon their joining. The Illinois camp was short about 650 men and that of the other two states about 550.

## WOMAN WORKER A STEEPLEJACK

Mrs. Sylvia Summers of Chicago Helps Husband in Perilous Job Here.

## CLIMBS ROUMANIAN SPIRE

A lithe and active young woman, 19 years old, climbed yesterday a 40-foot ladder to the top of the St. Michael's Rumanian Catholic church steeple today and stepped upon the big cross 95 feet above the ground. As the church is on a 40-foot eminence reached by steps, the young woman was 155 feet above the sidewalk.

She didn't make the dizzy climb for fun. She was helping her husband put up lightning rods on the church. Her name is Sylvia Summers and she is 23 years old.

Mr. and Mrs. Summers live at 721 South Western avenue, Chicago. Mr. Summers became her husband's helper in his diary trade when he couldn't hire a man.

Back to earth for a spell this noon Mrs. Summers was pursued by a breathless reporter who wanted an interview. Her cheeks still flushed from a recent run around the church roof, Mrs. Summers explained how it happened that she had taken up the novel line of work. "I saw," she said, nodding at a stray culling lock tried to escape from under a jaunty looking cap. "My husband couldn't hire any one else to come out here on the job so I told him I might as well pitch in."

Hard to Get Help.—"In Chicago, where we live, so many men are enlisting and so many others are getting big money in the shops making war material, that my husband can't get any helpers. The time is coming when the men will all be at war and the women will have to do their work, so I am beginning now. These are a pair of my husband's overalls. I am not ashamed to wear them."

"It takes a lot of nerve to do the work I have started out to do, but I've got the nerve. My husband tried me out when he sent me up on that cross, but I made good. A woman with nerve can do almost anything a man can and when our men are over in the trenches all of the rest of the women have got to pitch in like I am doing."

"I am not shirking my duty at home because I have no children. My husband has been doing this work all of his life and is on the road most of the time. I can go with him and we will save expenses at home."

His Best Helper.—Summers is employed by the Arrow Conductor company of Chicago, and resides at 721 South Western avenue in that city. He says his wife is better than any helper he ever had on the job.

"When I was out here to complete this contract I found it impossible to get any men," Summers said. "They were all either enlisting or were afraid to tackle this kind of work. I was telling my wife about my difficulty and she offered to come along. At first I laughed her off, but when I saw that she was serious, I told her to come ahead. She climbed one of the highest smokestacks in Chicago with me one time just for a lark, but I never thought of her as a helper. She went to the top of that cross better than any man I ever had."

The couple completed the work this afternoon and will return to Chicago tonight.

## LADY MINSTRELS IN REHEARSAL TONIGHT

Later in the day the health officer found three children ill with the disease in home of C. L. Wickton, 7 Walnut street. One of the children is a pupil in the room. The cases had not been reported to the health department. Other cases of the disease reported to the health department are in the homes of Charles Paul, 49 Lakewood court; A. J. Findlay, 27 Oak avenue; and Melvin, 108 South LaSalle street. There are two children ill in the latter home.

Joseph C. "Buggy" Moreau, a member of the Rippers bowling five, enlisted this morning and left at 10:55 for Jefferson barracks, Mo., via Chicago. He joined the artillery. Moreau was one of the crack young bowlers of Aurora. His team was the championship of the Merchants' league this season. He is the second recruit from the ranks of the league bowlers, Harry Boehner having joined the navy a week ago.

Robert McGarry who recently enlisted in the navy and was home for a brief period on sick leave rejoined the colors yesterday.

First Lieut. P. H. Gamberton of Columbia street went to Fort Sheridan yesterday to take a three months' course of training. He has been appointed a first lieutenant in the officers' reserve corps. Lieutenant Gamberton saw service at Annapolis, in the Philippines and in Japan. His ancestors landed at Plymouth Rock and his family has had representatives in every war that this country has engaged in.

Leonard Wade and Allan Erlenborn, both of whom have taken special training courses at Culver Military academy have gone to Fort Sheridan to enter the officers' reserve training corps.

Stealing Flags.—The American flag thief is a new one in the school of crime. August Hipp has reported that twice the stolen flags waving on his car have been stolen. One of the thefts was committed at the ball park and the other while his car was down town.

More Colored Laborers Arrive.—Twenty-five colored laborers, imported from the south, arrived in Aurora this morning and left at 11 o'clock for Galesburg where they will go to work for the Burlington railroad on track work.

## SETTLE THROWING ROCK IN CAR CASE

The case brought by the A. E. & C. against Ray Parkhurst and his father, Amos Parkhurst of Oswego, on a charge that the young man had hurled a rock thru an interurban car window and that the father had encouraged him, was settled out of court today on the young man's paying the cost of the window, \$2.

The young man hurled the rock over his shoulder at the motorman, C. A. Young, after upbraiding the motorman for driving thru a herd of runaway cattle which he had been chasing up the west river road. The altercation occurred near the Watt Creek school house. The motorman got out of his car and advanced towards Parkhurst when the young man threatened him and the boy then threw the stone, a brother said today.

The case was settled by the young man's paying the cost of the window, \$2.

Those who desire to join the Red Cross may register at any one of the following places, pay whatever fee they choose from \$1.00 to \$100.00, and receive an official Red Cross button: Aurora Beacon-News office, T. Patron member, one payment, \$100.00.

Annual member, \$1.00.

All members of classes paying \$2.00 or over will receive the Red Cross Magazine, handsomely illustrated, published monthly.

An Aurora is a little behind many cities of its size in the middle west in organization of a Red Cross chapter. (Elgin already having a large and flourishing chapter). It is strongly desired that members be obtained rapidly. Civic pride, as well as a keen impulse to aid in the great crisis, will doubtless lead many men and women in Aurora and vicinity to aid in this work.

## WRITES FROM THE MARNE BATTLEFIELD IN FRANCE

Mrs. J. W. Curry received a letter from her son, Thomas, today in which he sent her the latest patriotic novel from the French front. It is a handkerchief, of common American size, divided into nine equal squares. An allied flag is woven in colors on each corner, the remaining squares being white. The Stars and Stripes have not yet made their appearance on the field of the handkerchief.

Mrs. Curry, who has charge of 10 tractors, is engaged at present in leveling the battlefield of the Marne, which has been torn by bomb shells. He pays a great tribute to French road construction when he says, "The road which passes the field where we are working has not been covered in over two years and is in almost perfect condition, shall be deemed to have no effect upon it whatever."

## QUINCY DRAFT REGISTER DAY TO BE HOLIDAY

[By Associated Press Leased Wire.] Quincy, Ill., May 15.—Conscription registration day in Quincy will be a gala day, as the city council last night passed a resolution endorsing plans to hold a big celebration day. Mayor Thompson will appoint a committee of 25 to arrange for the observance, in which drafted men will be given prominent parts.

There seems to be a yellow streak in human nature that always makes it want to shift responsibility.

## JOSEPH H. CHOATE CALLED BY DEATH

Lawyer of Wide Fame, Ambassador to England, Stricken With Heart Trouble.

End Came Suddenly in New York Home Late Last Night—Beloved Wife and Children Grieved.

(By Associated Press Local Wire.) New York, May 15.—Joseph H. Choate, former ambassador to Great Britain and lawyer of international fame, died suddenly of heart disease at his home in this city late last night. Mr. Choate complained yesterday morning of feeling depressed and his physician was called. Mr. Choate was ordered to remain in bed, but later in the day he left his room several times to transact pressing business. About 10:30 o'clock last night he called his wife and daughter, Miss Mabel Choate, to his bedside. According to Miss Choate, he said: "I am feeling very ill; I think this is the end." A few minutes later he died.

Notwithstanding his advanced years, Mr. Choate took an active part in the entertainment last week of the French and British war commissions in New York. He was chairman of the reception committee that met Mr. Rene Viviani, Marshal Joffre and other distinguished members of the French mission last Tuesday and acted in a similar capacity when the British mission headed by Arthur James Balfour arrived in New York Friday.

A Remarkable Octogenarian. Mr. Choate was 85 years old, a lifetime during which he was one of the most distinguished practitioners of law in the United States, ambassador to England with signal success, a speaker applauded on innumerable public occasions, and, finally, a remarkable octogenarian.

He came from an old New England family, noted for strength of character and mental vigor. His father was a cousin of the famous Rufus Choate. He graduated from Harvard in 1882, a college mate of Phillips Brooks. He established himself in New York in 1886 soon after finishing his law studies, and as member of the firm of Everts, Southmayd & Choate, he rose to leadership of the New York bar.

He appeared in all the celebrated cases—it was said a case was not a case unless Choate appeared in it—where his fluency and wit and searching cross-examination brought him considerable success. He figured in the prosecution of "Boss" Tweed and his followers who tried the New York city treasury; he so successfully defended General Fitz-John Porter, that by reversal of a court martial that officer was reinstated; he appeared in the Tilden will case, the contest over Commodore Vanderbilt's millions, and the Chinese exclusion case, arguing against the validity of the act. There are but a few of the famous litigations in which he figured, his presence invariably making any case "an intellectual treat for the public, and a professional education for junior members of the bar."

His professional income during the height of his career was believed to be the largest of any practitioner in the American courts, tho it may occasionally have been surpassed by some of the huge fees paid for special services by some of the great corporations. He won his way through a combination of good humor which gave him the favor of the laity, the tactfulness of the judge in the duller cases, and legal skill.

It is on record that, during his younger days, he had the daring to rebuke a judge, who had turned to converse with someone behind him, while Choate was addressing the court. Choate stopped short in his address. The judge remarked the silence, and as his honor turned to face the room the lawyer began anew:

"Your honor, I shall need all the time allotted me for summing up; and I shall need your honor's undivided attention."

"And you shall have it," the court apologized.

Named by McKinley. Mr. Choate was a republican but had never held public office, beyond a brief term as member of a state constitutional convention, when he was invited by President McKinley in 1899 to go to London as the American ambassador. At a farewell dinner at

the Union League club. Mr. Choate remarked upon his inexperience in political or diplomatic life. "I am sorry," he said, "upon a happy temperament."

After his six years in England he was lauded on both sides of the Atlantic for the remarkable success he had had in strengthening the ties between the English speaking peoples. His range of sociability made him known as ambassador to the people as well as to the court. Numberless times he appeared as a lecturer on American institutions and American statesmen.

A mark of respect never before conferred upon a foreigner in England since the middle of the seventeenth century was paid him when he was adopted by the inner circle of the British bar and made a "bencher" or member of the governing body of the Middle Temple. It was, in fact, a compliment never paid in London to a lawyer of American birth and training.

As an after dinner speaker, Mr. Choate was a national-international possession.

The stories told about him, told were as countless as those he told for he was one of those picturesque figures about which stories cluster—some of which undoubtedly belonged to others. One typical flash of his wit is that with which he answered a dinner partner, who asked who he would choose to be if he were not Joseph H. Choate.

Mrs. Choate's second husband was the instantaneous reply. Mrs. Choate was Caroline D. Sterling of Cleveland, Ohio, whom he married in 1861, and by whom he had five children.

## APPEAL TO RUSSIAN ARMY TO HOLD FRONT

Council of Workmen's Delegates in Manifesto to Public Declares Peace Impossible.

New Russia to Lay Down Arms—New World Mean Enslavement by Kaiser, Warning.

(By Associated Press Local Wire.) Petrograd, May 15.—The following is the text in part of the manifesto to the Russian army issued by the council of soldiers and workmen's delegates, urging the continuance of the war and declaring that a separate peace is impossible. "Soldiers and comrades at the front! We speak to you in the name of the Russian revolutionary democracy. The people do not wish the war, which was begun by the emperors and capitalists of all countries, and therefore, after the abdication of the tsar, the people considered it urgent to end the war as rapidly as possible. Do not forget, soldiers and comrades, that the regiments of William are destroying revolutionary Russia. Do not forget that the loss of free Russia would be a catastrophe, not only to us but to the working classes of the entire world. Defend, therefore, revolutionary Russia with all your power."

Separate Peace Impossible. The workmen and peasants of Russia long for peace, but it must be a general peace of all nations; the result of their common agreement. A separate peace is an impossible thing which must not be allowed to interfere with or embarrass the course of events in the world. It is evident that German imperialism, after having defeated our western allies, would turn against us this whole power of its arms, seize our country and enslave the Russian people.

The Council of Soldiers and Workmen's Delegates leads you toward peace in another way. By calling for a revolution of the workmen and peasants of Germany and Austria-Hungary we will lead you to peace after having obtained from our government a renunciation of the policy of conquest and after demanding a similar renunciation from the allied powers. But do not forget, soldiers and comrades, that peace has not been achieved if you do not check the enemy's pressure at the front. If your ranks are pierced and the Russian revolution lies like an inanimate body at William's feet. Do not forget, you in the trenches, that you are defending the liberty of the Russian revolution and your brother workmen and peasants.

Fear Situation in Warsaw. Paris, May 15.—The resignations of the Russian minister of war, M. Guchkov and General Kornilov, the military commander of Petrograd, have caused a painful impression here and increased the feeling that the situation in Russia is getting worse instead of better, and, more rapidly, than was suspected. Even the socialist Humanite, which naturally views all things by the revolutionary element with an indulgent eye, declares: "All liberals and democrats the world over feel only a too comprehensible anxiety at the turn events are taking."

ARE WOMEN NATURALLY DESPONDENT? While there are women who seem always despondent and depressed and expecting misfortune, that is not woman's natural condition. Such unfortunate suffer from ill-health. An abnormal condition of the system expresses itself in nervousness, sleeplessness, backaches, headaches and despondency.

## PART OF U. S. FLEET NOW IN NORTH SEA

Twenty Destroyers Already  
With Allies Waiting German  
Mans, Says G. I. Haight.

Delivers Stirring Address at Aurora  
Navy League Luncheon at  
Navy—Need Men.

"Twenty United States destroyers are in the North sea and others will leave for European waters on May 23," George I. Haight of Chicago announced at the first public meeting of the Aurora branch of the Navy League of America, held in the Dicks club dining room. A. M. Snook presided because of the illness of Carroll Miller.

The United States navy is the superior of any navy—boat for boat—and this great navy today is in need of men is the watchword of the entire Atlantic ocean. The French and English battleships, which since the beginning of the war were a few miles outside our coast lines, have withdrawn and it is up to the United States to keep the German lanes clear for merchantmen to travel thru.

Mr. Haight defined the issue of the great world war, as being "the right of people under the rule of democracy versus the alleged divine right of kings."

America Must Awake.

"This is a serious war, the most serious conflict in the history of the world. We don't seem to realize that there are 100 times as many men engaged in the conflict now than were used in the Napoleonic wars. Americans must awaken to a sense of their duty and realize that the issue is greater than the sinking of the Lusitania, whether a foreign power has the right to violate the Monroe doctrine and encroach on this hemisphere: the activities of foreign spies and their plots, and the tempt to give part of our country to Germany, Villa and the like; the rights of neutrals; the rights of international law. The issue is the right of men under true democracy versus the alleged divine rights of kings. Our own declaration of independence says, 'Man is born into this world with rights.' That is the ultimate great issue. And man can take only one side in this gigantic struggle."

"Our navy is a most important factor in determining the issue of the war. Germany has plenty of food to carry her thru for a time. England and France are facing a shortage of food supply and a supply of munitions."

Must Aid Our Allies.  
"We know the difficulties in getting food and munitions to our allies. The submarine menace is most serious. England's safety is endangered. That is the reason so many troops are held in England. We draw the troops from England and she would be in danger of a land attack."

"We must send an army abroad but it would be folly to send an army over to France unless we can with our great navy keep our connections intact with our men and allies. We must be in a position at all times to supply our men with food and munitions."

food and munitions.  
"Our ships are not supplied with men. Some of our mightiest bread-nights are only half-manned. We are confronted with the problem of sending fighting machines out to sea with 'green men.'"  
Must Have More Men.  
"Our first-line boats are nearly completely manned; our second-line boats are not. We need men. We must man our coast defense, our chasers, and our first and second-line boats. We must have more men. Our three merchant ships were manned by green men in the navy. The navy will have to take charge of the merchant service. We need 100,000 men right away. The conscript bill doesn't apply to the navy."

"The Navy League got active when Captain Moffett came to Chicago and said, 'For God's sake, can't you do something to help us get recruits so our ships will be manned? We are civilians, who are 100,000,000 service, must do something in getting recruits. We must have more men. The Navy League is authorized, confirmed and endorsed in this work by Josephus Daniels, W. M. Buchanan and George H. Lambertson also spoke, supporting the remarks of Mr. Haight."

It was announced that a recruiting station will be opened in the old Walk-Over shoe store, immediately.

About 100 men from many walks of life attended the meeting and they were enthusiastic about the work after listening to the speaker.

## ADMEN'S CLUB NAMES CONVENTION DELEGATES

Col. J. K. Groom and O. T. Clark of the Aurora Admen's club were elected delegates to the thirteenth annual convention of the Associated Advertising Clubs of the World, to be held at St. Louis, June 23-27. Other delegates may be seen at last night's meeting, giving the organization a membership of 100. The best display advertisements in the Aurora merchants' publications are to be sent to the St. Louis convention to be placed in competition with advertisements from all parts of the United States. A committee of J. D. McCredie, Charles Hofer and Kelley Rittenour, was appointed to collect the advertisements and send them.

## MCDONALD ESTATE

The estate of the late Dr. McDonald, stock farm owner, was filed today at Geneva for probate. It consists of real estate valued at \$10,000 and personal property worth \$12,000. His will directs that all his debts and funeral expenses be paid and that the balance of the estate go to his widow who was appointed executor.

## MEN AS ELIGIBLES GET PAY RAISED

Women Teachers Get Half the Increase Because if Married Don't Need Advance.

Men teachers in the East High school who are not married are liable at any time to rush into a state of matrimony and those who are married surely need the money so this class of instructors was awarded an increase in pay of \$100 a year by the board of education last night. The women teachers were given \$50 a year more than they receive now. "As unmarried folks they can get along on less than the married man and if they get married they won't need any pay-way," the teachers had petitioned for \$100 increase in wages because of the great advance in the cost of living.

In listing necessary expenses the teachers went on the theory that one of the profession has no time to be sick and so did not charge up doctor's services as among the necessities.

Raises and Some Bonuses.  
Teachers in grades two to five were granted a \$50 a year raise from \$650 to \$700. It was also agreed that all teachers on the supplementary list which includes all grade school teachers should be given a \$50 bonus at the end of the year.

Miss Krug was recently elected by the west side board at \$550 a year. "The matter of a new Brady school building, an improvement which the board members conceded was badly needed, was not acted upon because of the inability at this time to raise further taxes."

Committees.  
Sumner Ricker, the newly elected member of the board, took his place

Golden Links Give Concert.  
A fine concert was given last evening at the Galena Boulevard Methodist church by the Golden Links class of the Swedish Lutheran church. The members of the class feel most grateful to those who aided in making the concert a success, including the musical talent, the reader, and the members of the Kreis glee club. The proceeds will be used toward the fund for the new church.

The Catholic League.  
The first regular meeting of the entire Aurora Catholic Woman's league since its organization as a unit, was held today in K. C. hall. The day nursery department reports that it has had its garden plowed, and thanks to the kindness of Mrs. Elizabeth Barthold, A. J. Erlenborn and several other potatoes and seeds have been furnished, and the garden is under way, a man having been secured to work it on shares. However, should any one wish to donate a wheelbarrow and a length or garden hose, both will be welcome.

Visiting on Farms.  
The Rev. and Mrs. E. H. Montgomery and family left Monday in their machine to spend a week with Mrs. Montgomery's relatives on a farm near Herkman, Ill. In all probability the two boys, Richard and Chandler, will remain on the farm.

IT NEVER FAILS TO  
END MISERY OF PILES

"Hundreds of people in this vicinity," says Peterson, "know of the SON'S OINTMENT in eczema, salt rheum, old sores, itching skin and ulcers. They know it cures these ailments—that it is guaranteed to cure them."

Now I want to say to every sufferer from piles, either blind, bleeding or itching, that I will guarantee that a 25-cent box of PETERSON'S OINTMENT will rid you of piles or your druggist will return your money.

For years I suffered terribly from hemorrhoids and bleeding piles. I tried everything and despaired of ever getting rid of them. It gives me great pleasure to state that Peterson's Ointment entirely cured me, and I sincerely recommend it to all sufferers."

Yours truly, David A. Seymour, Supt. of Parks, Buffalo, N. Y.—Adv.

## Begin by Buying the Lasting Kind

THE bride and groom of today realize that however little furniture they may need with which to start house-keeping, they "want that little long." Our furniture has that old-time knack of lasting and of being so designed as not to go out of fashion.

You don't expect to buy furniture every day, and therefore when you do buy, you are entitled to goods that you can use every day for a long time. Our furniture is just that kind—made of selected, seasoned woods; fashioned with artistic skill; polished, finished, or upholstered by practiced hands—the kind of furniture that will wear well and that you will be proud of.

## Aurora Society News

Aurora may have been slow (it has been accused) in realizing that the country is in a state of war, but if such was the case, it is no longer true. Flags, bunting, clothing, and red, white and blue symbols of every sort are to be seen everywhere, while the talk is of little else but the war and the part the city's residents will play in the great struggle.

For Benefit of Red Cross.

It is said that one of the striking and pretty features in the minstrel show which is to be given at the Lyric theatre Wednesday, Thursday and Friday evening of this week for the benefit of the Red Cross, is the after-piece, a 15-minute production which will show a number of settings associated with the Red Cross movement.

The entire cast in the minstrel show will appear in Wednesday's installment of the Beacon-News, this, in the mind of the director, E. W. McClave, who has had much experience in staging shows of various sorts, being the psychological moment for the appearance of the full cast.

Miss Florence Henry who is to be the interlocutor (Mrs. Mahaffey) has been found to make a fine Columbia, which is the role in which the interlocutor will appear.

The six end "men" are the Misses Helen Manning, Ruth Maher, Marvel Morlock, Elvenera Gannon, Frances Coleman and Ruth Robinson. The young girls will be assisted by 13 members of the Bachelor club, which recently gave an excellent minstrel show.

The costumes for the young girls in the circle arrived in Aurora this morning. They are extremely pretty, and is strongly urged by the director, that the young girls in this circle attend the dress rehearsal at the Fox theatre

evening without fail, as it is absolutely necessary that it is known that all the costumes ordered will be used. Provision has been made for home-going this evening at the conclusion of the rehearsal.

Among the features of the show will be the singing of Miss Elsie Haenel, whose voice is always enjoyed. Miss Haenel will sing "Spring Awakening." Miss Geraldine Chapman will give the "Butterfly Dance." Among the dances which will be extremely good, is which will be given by Miss Jeanette Glinberg and Leonard Applequist.

The full Fox theatre orchestra will play accompaniments. Practically everything made at the three performances, it is said, will be turned over to the Aurora chapter of the Red Cross, which is reason enough for buying tickets, even were the show not as good as it really will be.

The patrons and patronesses of the minstrel show are as follows: Mr. and Mrs. J. K. Gleason, Dr. and Mrs. C. W. Oyster, Dr. and Mrs. H. A. Brenneke, Dr. and Mrs. L. R. Lee, Dr. and Mrs. D. D. ### DETECTIVE TAKES ACCUSED

C. H. Hainer and Edward Connor met at Gary, Ind., two weeks ago and decided to "put it" thru the west in search of work. At the time the acquaintance was struck up Hainer had money and Connor was financially embarrassed.

"I'll pay your way until we get started," Hainer said, and bought railroad tickets to Chicago. Arriving in there the men heard of Aurora and decided to come here. Hainer again paid the railroad fare.

The two got work here at the Western Wheel and Scraper Works. They got a room at the Schiltz hotel. After six days' work, Connor suggested that they quit and go to the Dakota wheat fields. Hainer agreed.

He Had a Cold.

Early last evening Hainer complained of a cold and told his "pal" that he was going to bed early. He retired about 8 o'clock and went to sleep. A 3 o'clock this morning he woke up and discovered that Connor was gone. Hainer got up and turned on the light.

This is what he found in his own words:

"When I turned on the light I saw that my trousers were missing. I saw that my other two suits of clothes were gone. Then I looked for my grip and it was gone. I looked back of the picture on the wall and it was gone. I looked in the corner for my suitcase and it was gone. Then I looked back of the picture on the wall for the \$20 I had hidden and it was gone. All I had left was my shirt, socks, underwear, hat and collar and necktie. I tried to get out of the room to notify the clerk and found the door locked. I was locked in. I yelled and pounded on the door until the clerk came. He was a fine friend and pal, that guy was."

Detective Reed "the friend."

Detective Hainer, met Connor walking along Broadway after midnight carrying three grips. Connor asked where he could get a room and the detective directed him to the Columbian apartments. At 3:15 o'clock the police were notified of the robbery at the Schiltz. Detective Hainer found Connor in bed at the Strand hotel and arrested him. Connor confessed.

Before he could appear in police court this morning Hainer was compelled to borrow an old pair of trousers at the hotel. They were torn at the knee and were made for a man twice the size of Hainer. He appeared in court without a coat or vest. Connor's case was continued until tonight.

Both Hainer and Connor claim Indianapolis as their home.

## FIREMEN RESCUE SAD SINGING CAT

Take Kitty Out of Tall Tree  
After Coaxing of Women  
Falls of Purpose.

Fireman Wins Confidence of Tabby  
and Brings It Down and  
Women Applaud Loudly.

Resourceful women living in the neighborhood called the fire department hook and ladder and crew yesterday to get a cat out of a tall tree. The women had tried with all the sweetness at their command, and with pans of milk to coax the cat down but Kitty would not leave a perch in a top branch.

Kindly dispositioned as the women are they would have just as soon seen the cat fall and break its neck as to see it rescued because it was a singer of sad songs, who, starting each evening soon after darkness fell, wailed through the night.

With everybody getting depressed at the cat must be sacrificed or sold into slavery to save the morale of households.

But after the cat had scorned the women's blandishments, and their milk it seemed that the well-meaning tacticians were to be defeated. It was then that "a woman of the hour" suggested calling upon the fire ladders. The men came willingly and acted quickly.

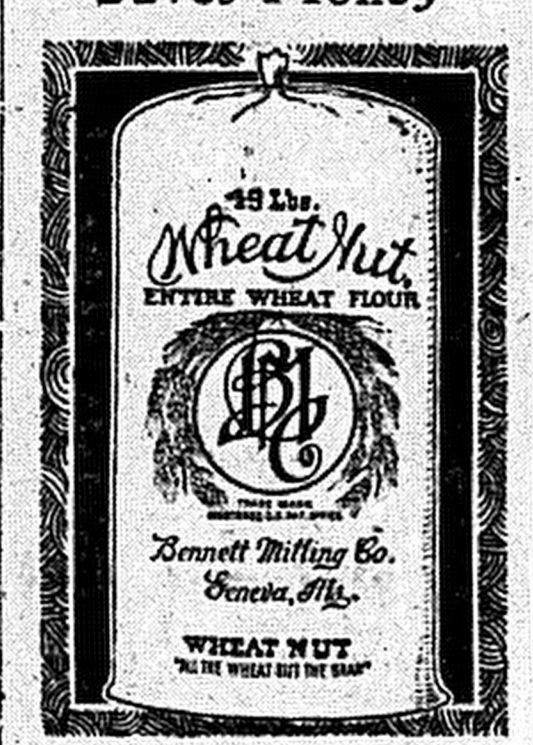

Within a few minutes after the big automobile truck arrived a tall ladder was swung out and up, a fireman hurried nimbly up its rungs and addressed the cat and won her confidence. Then he seized her for him or it brought it down and made away with it. It tickled the women pink. Firemen are going to look good to them for a long while.

With triumphant and well-earned glory, I am truly a sincere and well-wisher.

Latest Rumor Heard From West  
High Volunteer Is That He  
May Go to Alaska.

West High school boys who rushed to the colors soon after volunteers were called for have been sent to widely different points since they landed at Jefferson Barracks, Mo. The boys when they enlisted hoped to remain in the same regiment.

How little the boys know of where they are to go is revealed in a letter to Will Olinger, from Frank Herrick, who is at Fort Leavenworth, Kas. Herrick says there are rumors about camp that they are to go to Alaska. Not many days ago the boys thought they were going to Arizona. Then they had it they were to go to the Mexican border, to Virginia, to Vermont, and to San Francisco.

When last heard from Gus Tebell, Lawrence Conway, George and Harold Johnson and Carlson were with the 24th Field artillery at El Paso, Texas.

Frank Kirby, with Paul Whitford and Foulke, were in Douglas, Ark. Bernard "Blinks" Conway, Elverson Geipel and William Lloyd, who was employed at the Bishop hotel, were at Fort Ethan Allen, on Lake Champlain, Vt.

Harold Cramer, a St. Charles lad who played football with West High while a student was with the boys at El Paso, and James McAdams and Joseph Wolf, who left shortly after the high school boys went to Douglas, Ark.

Herrick has been made a corporal. He is a lanky boy and would be happy to see his pals. "I want Kirby's and Tebell's address," he says in his letter. "Have you got it?" Like the rest of the recruits he speaks glowingly of the soldier's fare. "I have gained six pounds since I got here," he says. "The food is fine and

## PRESERVE THE BEAUTY OF YOUR FURNITURE

Follow the Method of a Famous  
Furniture House

Ninety-nine times out of a hundred when a piece of furniture is discarded, it is because the finish has gone. Otherwise the article is as serviceable as new. Preserve the finish and you save the piece.

The method used by the famous Tobey Furniture Company (Chicago and New York) is to clean and maintain the finish by the use of an old secret formula developed through many years of experiment and research. This preparation is now available to the public in the form of Tobey Polish, sold by the better stores everywhere.

Tobey Polish cleanses thoroughly, easily and quickly, without hard rubbing, and wipes off dry. It removes the greasy appearance from mahogany and the obscure small blemishes. It is a perfect preparation for automobile bodies.

## RAILROAD MEN CAN WIN WAR FOR U. S.

This the Nucleus of Appeal Sent  
Over Nation by American  
Railway Association Head.

Less Time in Loading and Unload-  
ing, More Effort in Carrying  
for Engines Urged.

Every time a freight handler puts  
extra effort in trucking 1,000 pounds  
more a day in loading a car he will  
have aided just that much in bring-  
ing the war to a close. Every time  
the crew of a railroad locomotive adds  
15 miles a day to the running power  
of an engine they will have done their  
bit to end the terrible conflict. Also  
should that same crew guard that lo-  
comotive so as to keep it out of the  
repair shop they will have put an  
additional punch into the effort to  
bring the war to a victorious end for  
the United States and our allies.

These facts are the nucleus of an  
appeal to all railroad men, shipped  
and persons having anything to do  
with railroad work, which reached  
Chicago today from the American  
Railway Association's special com-  
mittee on national defense. The ap-  
peal was signed by Fairfax Harrison,  
chairman.

Less Time to Load and Unload.  
Statistics, according to the appeal,  
show that shippers and consignees  
consume about four days' time in  
loading and unloading freight cars. If  
a day or even half a day is cut from  
this time that car can be that much  
farther on its way to doing its work  
in the United States, and automati-  
cally release the same amount of en-  
ergy toward supplying the army of  
the United States and the armies of  
France and Great Britain in the field.  
There are about 2,150,000 freight  
cars in the United States. Normally  
147,000 of these are under repair. By  
close watching and quick repair work,  
Mr. Harrison declares, there can be  
64,000 more freight cars in active  
service. Only 48 per cent of the ca-  
pacity of all cars is utilized, thus  
wasting a waste of 57 per cent of  
unused space. It is argued that if  
every car is filled to capacity there  
will be that many more cars in ser-  
vice.

The same situation exists as far as  
locomotives are concerned, according  
to the committee. Approximately 15  
per cent of all the engines are under  
repair. If the percentage were re-  
duced by 5 there would be added an

additional 3,225 locomotives to the  
service.

Aim is to Increase Capacity.  
"There is a demand for transporta-  
tion that is not being supplied as a  
result of the war," states the "nucleus."  
Some of these suggestions will  
increase operating costs, but their  
purpose being to increase the capacity  
of the plant the result is deemed to  
justify sacrifice in a national emer-  
gency.

The railroads were also urged to  
hold meetings between officials and  
employees to consult on the present  
conditions and act in increasing the ef-  
ficiency of the national Co-  
operation between heads of railroad  
freight and passenger departments  
with commercial organizations and  
shippers was also urged.

## COL. FADYAN HOPES SCHOOLS ADOPT OATH

The Beacon-News is in receipt of  
the following letter from Col. George  
Fadyan:

"Editor The Beacon-News: Frank-  
ly I am much pleased with the form  
of oath brought out by the great  
The Aurora Beacon-News took on the  
matter, and I want to thank all those  
who took a part in it. I heartily con-  
gratulate both J. M. Richardson and  
Francis McNair, and I sincerely trust  
that the oath will be adopted by the  
different boards of education and ad-  
ministered to each boy as he enters  
high school.

"The nature of an oath should be  
made very plain to the boy before  
taking it, and he should realize ex-  
actly what it means.

"I understand that Francis McNair  
is now a cadet in the Batavia high  
school guards, and for this reason  
I trust the form of oath submitted by  
him will be the one adopted. In tak-  
ing the oath, the boys should under-  
stand that it is not enough for them  
merely to go thru the form, that it is  
not enough that they are sincere, and  
that their intentions are of the best,  
but that the oath which they take  
means that they are to remember it,  
and turn it into real life, and in the  
oath specify their daily life.

"Very truly yours,

"GEORGE FADYAN."

The Associated Press Learned that  
Mexico City has been discovered 66

## GERMAN POTATO SHORTAGE ACUTE

Only in Berlin and Essen Dis-  
tricts Where Labor Troubles  
Prevail, Is Ration Allowed.

Manifester Workers Get Five Pounds  
per Week—Other Districts  
Supply Cut Down.

(By Associated Press Leased Wire.)

Copenhagen, via London, May 15.—

The potato shortage in Germany is  
making itself felt in spite of assur-  
ances at the time the bread ration  
was reduced last month that enough  
potatoes were on hand to permit a  
weekly per capita issue of five pounds  
until the next harvest. The bureau  
of food control, by strenuous efforts,  
has been able to supply a five-pound  
ration in the Berlin and Westphalia  
industrial districts, where the labor  
crisis at the time of the reduction of  
the bread ration was particularly  
acute. Bitter complaints, however,  
are coming from various other sec-  
tions of the empire which feel that  
they are being slighted in favor of  
the capital and the Essen district.

Much Less in Other Places.

In many sections of Bavaria, ac-  
cording to reports to the Reichstag,  
the potato ration is only 24 ounces  
weekly. The Hamburg ration is now  
and has been for weeks three pounds  
and the sister city of Altona has  
been placed for the next week on a  
pound and a half allowance.

It is true that in accordance with  
the government's promise the bread  
ration is not reduced where the five-  
pound allowance of potatoes is not  
furnished. Every pound extra of  
four applied for this purpose, how-  
ever, upsets the government's scheme  
of distribution, which was based on  
the fact that the stock of grain in

the empire is barely adequate, under  
reduced rations, to carry the popula-  
tion thru until August 15, the earliest  
possible date when flour from the  
new harvest is expected to be avail-  
able.

## BABY DAY IN ENGLAND

(By Associated Press Leased Wire.)

London, May 15.—One thousand baby  
shows and perambulator parades will  
be part of a great national campaign to  
be held in England during the first week  
of July to promote the health and wel-  
fare of babies.

Mayors, medical officers of health and  
town clerks in 210 districts will co-  
operate with the National Baby Week  
council which is promoting the shows.  
Lord Rhonda is chairman of the council  
which includes members of the cabinet,  
doctors and social workers.

In each of the 210 districts there will be  
a mothercraft and baby welfare exhibition  
with competitions; and about 40 sections  
devoted to every feature of baby-rearing.  
There will be a first aid section, showing  
how to deal with bumps, cuts, burns, chil-  
dren and other infantile troubles.

# Which will you have?

# You must decide NOW!

YOUR grandfather's writing materials were a quill from a goose feather and a horn of ink.  
YOU CARRY IN YOUR POCKET A MODERN FOUNTAIN PEN, INSTANTLY  
READY TO WRITE.

Your grandfather, when he went hunting, took along his heavy, flint-lock fowling piece.  
YOU CARRY A LIGHT, HAMMERLESS, REPEATING SHOTGUN THAT IS IMMEDI-  
ATELY READY FOR ONE SHOT OR A DOZEN.

Your grandfather's lantern was a bulky tin affair in which a candle dimly burned.  
YOU USE AN INSTANTANEOUS, BRILLIANT ELECTRIC FLASH-LIGHT THAT  
YOU CAN CARRY HANDILY IN YOUR POCKET.

The Encyclopaedia Britannica, printed on old-  
fashioned thick paper, makes a set of heavy, cum-  
bersome, bulky books, one volume of which weighs  
eight pounds and requires a table to hold it while  
being read. The "HANDY VOLUME" ISSUE OF  
THE NEW ENCYCLOPAEDIA BRITANNICA,  
PRINTED ON THIN, GENUINE INDIA PAPER,  
EACH VOLUME WEIGHING 23 OUNCES, IS  
THE UP-TO-DATE, QUICK-ACTION, INSTANTLY  
AVAILABLE, INVITINGLY USABLE WAY OF  
OWNING THE GREATEST LIBRARY OF FACTS  
EVER PUT INTO TYPE.

Here are the same differences that exist between  
the modern, always-ready fountain pen and the old-  
fashioned ink horn and quill; between the modern,  
ready-to-use shotgun and the old-fashioned fowling  
piece; between the instantly ready, brilliant flash-  
light and the clumsy candle lantern.

You can buy the new Britannica printed on  
thick paper, in big type, large page, get-your-  
table-ready-to-hold-it volumes now or at any time.  
It will be obtainable in this form for years. There  
is no hurry.

**But—**if you want to own a  
set of the Encyclopaedia  
Britannica in the popular "Handy  
Volume" form, printed on genuine  
India paper—you must decide  
**NOW—**for unless you buy **NOW**  
you can **NEVER** buy it.

When the last set is sold you **NEVER** can

**NOW** if you act **NOW**. This means just one thing—go **TODAY** to the store

use-the-books-while-you-pay-for-them" plan. Make up your mind whether  
or not the Britannica will be useful and helpful—**THEN ORDER**

Do not put this off even twenty-four hours.  
Every order we receive increases the possi-  
bility that the remaining sets will all be sold  
before Saturday the 26th. Therefore—you

## BATAVIA MAYOR IN APPOINTMENTS

New Council Sworn in and City and Aldermanic Jobs Are Given Out Last Evening.

New Alderman, J. F. McNair, Made Chairman of Judiciary Committee—City Jobs Unchanged.

Batavia, Ill., May 15.—Last evening the city officials took the oath of office beginning another municipal year. Only one change was made in the entire city force. Clarence Hays has been in the city council as alderman in the first ward for the past eight years, was not a candidate for re-election. J. F. McNair was elected to his place. The members of the city council tendered Mr. Hays a vote of thanks and everyone in attendance at the council stood up and gave three cheers for Mr. Hays.

The city council has purchased a new road grader of the Western Wheelbarrow Works, Aurora. The price paid was \$165.

Two applications for the position of driver for the new auto fire truck were read and placed on file. They were from G. L. Nelson and John Kaiser.

Bids were asked for a new unit of electric power for the city plant. The bids are to be in by June 11.

After this business the new council took its place. Mayor J. V. Burton, who has served the city for two

terms as mayor and was re-elected with the largest majority ever given a mayor, was greeted with applause.

W. H. Reany, city clerk, also got a hand when he took his oath of office. J. Paul Kuhn, city attorney for the past two years, and Hugo Larson, who is serving as treasurer for the second term, were also sworn in with appreciative greetings by friends.

Mayor Burton made the following appointments: Superintendent of municipal plant, L. A. Barry; city marshal, Michael McQuinn; patrolman, John Schiltz; fire marshal, August Hendrickson; assessor, L. N. Pahnke; city physician, Dr. C. E. West; and sexton, West Baptist cemetery, Andrew Anderson.

The council committees named follow: Finance committee—Burton, Mair, Freedland, Mair, Mitchell, Fry, Carlson, and McQuinn; Public grounds—Mitchell, Fry, Carlson, and McQuinn; Judiciary—McNair, Freedland, Hanson; Police—Carlson, Mitchell, McNair.

Patriotic Rally. The Batavia patriotic rally, held last evening and the first of the series, was a success. The West Baptist cadet drill, as well as the float of Uncle Sam inspired the high school cadets and Boy Scouts, in their eagerness to serve Old Glory.

Harvey Gussell of Aurora is being prepared by the clerk in Circuit Clerk Justus L. Johnson's office, to be filed in the upper court to which an appeal has been taken.

Miss Hazeltine, 71 years old and a teacher for 48 consecutive years in the St. Charles school, and a resident of St. Charles since her marriage, is fighting to retain ownership possession of her home in First avenue.

Master-in-chancery Gussell ruled that Miss Hazeltine had the right of ownership and possession of the property and Circuit Judge C. F. Irwin affirmed the opinion of the master.

Miss Hazeltine's contention is that she has occupied the house for many years, that she had expended money for the taxes for many years and for making repairs, and that her brothers and sisters have not objected to her claiming the house, until the suit was started.

The suit was filed in the circuit court at St. Charles, Mo., and the first hearing was held Aug. 6, 1915. The witnesses who testified were: Nellie Bentley, Augusta Hazeltine, Clara M. J. Pearson, Ella Keyes, Mayor E. M. Hunt, E. A. Gray, E. Hempstead, Henry A. Glos, M. M. Baldridge, John F. Elliott, H. F. Lockwood, J. B. T. Wheeler, C. L. Hunsicker, W. R. ## Movie Notes

After an unsuccessful attempt to drown Jack Pickford during the production of "Freckles," Marshall Neilan endeavored to cut off one of his own feet with a lumberman's ax, and this experiment proved much more nearly successful than the first. It was on a wet day that the players had gone into the woods, and Neilan, while waiting for a cloud to pass from the face of the sun, picked up an ax and attempted to drive it into a nearby log. The blade skidded on

the wet surface of the log, however, and cut a gash in his heavy lumberman's boots and very nearly severed three toes.
